

## Trustee office experiences “big time savings” with BlueStylus for Attorneys & BlueStylus Case Builder.

### Q/A

with Darlene Anderson

Darlene Anderson has been using BlueStylus for Attorneys for more than 4 years now. She had previously used a well-known time & billing PC product, then moved to a different provider with a web-based product. She found their web-based product too cumbersome to use. That's when she landed on BlueStylus, offering the functionality she needed at a budget-conscious price. She's been a loyal user ever since.

#### BLUESTYLUS CASE BUILDER

*"If you don't want to get caught up in big subscriptions from other companies, this has everything you need to set up and file a petition."*

**What are the top features of BlueStylus for Attorneys that you use and like the most?**

“ We use the software for document management and time and billing. What we like best is the ECF document management. It grabs documents and puts them directly in the ECF folder within the case. There are fewer clicks for us which is a big time saver. Previously, our staff couldn't get all ECFs downloaded on a daily basis. Now they don't even have to go through the process of downloading and saving them to cases. BlueStylus does it for them automatically. ”

**Have you found the BlueStylus platform easy for you and your staff to use?**

“ It is easy to maneuver within the software. It is self-explanatory and very user-friendly. You can simply move matter to matter or client to client. ”

**Would you recommend BlueStylus for Attorneys to other trustees?**

“ For standard bankruptcy or trustee work, BlueStylus works fine and yes, I would definitely recommend it. It is capable of handling billing and tailoring it to accommodate your local area and needs. ”

**Have you tried BlueStylus Case Builder for petition preparation, filing and management yet?**

“ Yes, it's great. I haven't filed anything yet, but have tested the product. If you don't want to get caught up in big subscriptions from other companies, this has everything you need to set up and file a petition. It generates the petition and schedules in the format needed to file with the court. ”

**What do you like best about BlueStylus Case Builder?**

“ The cost and the fact that if you're utilizing BlueStylus for case management, you'll have an all-inclusive product. There is no need for multiple products which is a huge cost saver for any business. ”
