

## BlueStylus Case Builder Gets a Thumbs Up.

### Q/A

with Phaedra Spradlin

Phaedra Spradlin is an independent law professional practicing in Lexington, Kentucky. Previously, Phaedra was a Chapter 7 panel trustee for 23 years. Her specialty is bankruptcy law. Recently, Phaedra spoke with us about her experience with BlueStylus Case Builder, our petition preparation, management and filing software.

#### BLUESTYLUS CASE BUILDER

"I believe the ease of use will be the biggest benefit. The quicker I can prepare a petition the better off I am, and the better off my client is."

**What do you like best about BlueStylus Case Builder?**

“ Having used *TrusteSolutions* for over 20 years when I was a practicing trustee, the user interface was familiar to me. It is very user friendly. There are several features that I like best including the ease of entering data, the ability to correct mistakes, and the fact that it generates information in all of the places it needs to go in the petition. ”

**How does BlueStylus Case Builder compare to what you've previously used for petition preparation, management and filing?**

“ I've been using a competitive software product for about a year now. It is not user friendly at all and costs me around \$75 per month. I like the idea that BlueStylus Case Builder is interested in keeping costs down for attorneys. ”

**What do you expect will be the biggest benefit BlueStylus Case Builder will offer your practice?**

“ I believe the ease of use will be the biggest benefit. The quicker I can prepare a petition the better off I am, and the better off my client is. Being user friendly is a huge advantage. ”
